# Project for Improving Women's Health Care of Factory Workers Focusing on Cervical Cancer

<Project purpose> Number of workers who receive “Screen and treat” (Early diagnosis and treatment) of cervical cancer increases in the target factories

*Photo source: UNFPA Cambodia*

<Outputs>

1. **Female workers in the target factories** increase awareness of cervical cancer and women's health care
2. **Factory managers encourage** their workers to go to cervical cancer screening
3. “Early diagnosis and treatment” is established in 3 pilot hospitals

# Benefits for women and for us

## Benefit for women

- Better health promotion, improved access to health info & Repro health services

## Benefit for SCGO

- Improved scientific and academic activities
- Strengthened SCGO secretariat/office functions

## Benefit for SCGO members

With technical support from JSOG

- Human resource development
- Cervical cancer clinical protocols and relevant forms for Cx Ca early diagnosis and early treatment
